

# NETWORK 16 DIGITAL OUTSTATIONS

The new Network 16 range of outstations comprises of a digital Type A, Digital Type B and the new Digital DDA interface to enable the EVCS-TAP to connect onto the Network 16 loop.

The Type A handset is a compact unit comprising easy access via a magnetic push catch front door. The outstation is compatible with all Network 16 systems and can be used as a fireman's telephone, stewards telephone or as a refuge outstation.

The Type B handset is compatible with all Network 16 systems and is available in both surface and flush types and available in either red or green finishes.

The DDA interface enables the Emergency Assist Toilet Alarm to easily connect onto the Network 16 communication loop.
